CERTIFIED RETURN RECEIPT REQUESTED
(P 402 458 368)

Mr. Alan M. Trbovich
Environmental Engineer
Kennecott
1515 Mineral Square
P. O. Box 11248
Salt Lake City, Utah 84147

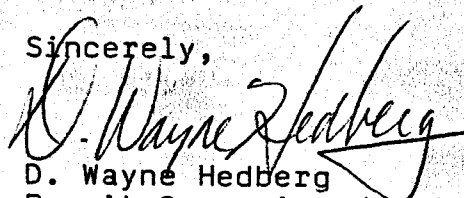

Dear Mr. Trbovich:

Re: Request for Additional Permitting Information, "Phase II" of
Kennecott's Mining and Reclamation Plan Amendment, UCD
Modernization Project, ACT/035/002-II, Salt Lake County, Utah

The Division is in the process of completing the technical review of Kennecott's, Utah Copper Division, April 28, 1986 submittal which addresses "Phase II" permitting for the UCD Modernization Project. You were contacted by James Leatherwood, Division soils specialist, on May 8, 1986 concerning the lack of certain information regarding soils salvaging and stockpiling for this portion (conveyor/pipeline) of the project proposal. You indicated that this was an apparent oversight and that this section of the application would be revised accordingly and submitted directly to the Division.

To date, we have not received this supplemental material. This information is necessary to complete the technical review of the permit application. We would appreciate receiving a response at your earliest convenience. The technical review will be temporarily suspended until we receive this additional information. Thank you for your cooperation in this matter.

Sincerely,

D. Wayne Hedberg
Permit Supervisor/
Reclamation Hydrologist
